

HOLMER LAKE PRIMARY SCHOOL

HEALTH AND SAFETY POLICY

2024 - 2025

Policy- Document Status			
Date of Policy Creation	Spring 2024 – reviewed annually	Named Responsibility	SBM Miss Pearson/ Headteacher Mrs Kumar
Date of Policy Adoption by Governing Body		Spring 2024	
Review date:		Spring 2025	

Key Points:

This Health and Safety policy is based on guidance from Telford & Wrekin Council. It refers to the detailed advice available in the Education SharePoint Knowledge Hub.

This is a standard health and safety policy template. Each school should identify what is appropriate for their school and amend the policy as necessary.

Governors/Head teachers should identify those staff with Health and Safety responsibilities and ensure that these are set out in this policy.

All staff should be able to access health and safety information and notify the Head teacher if they cannot.

In order to carry out the policy effectively, the School Governors and Head teachers will seek cooperation, through consultation and involvement of all employees; bring key parts of the policy to the attention of visitors; keep abreast of legislation and good practice, monitor performance on a regular basis and seek professional advice when necessary.

Section 1; Policy Statement

It is the policy of Holmer Lake Primary School to safeguard the health, safety and welfare of its employees and all persons likely to be affected by its undertakings. The school accepts the aims and provisions of the Health and Safety at Work etc. Act 1974 and the Management of Health and Safety at Work Regulations

and aims to comply with all other relevant statutory obligations. The successful management of health and safety contributes to the overall performance and objectives of the school.

The school is committed to;

- Developing a positive health and safety culture with the commitment and participation of all employees
- Assessing the risks to the health and safety of its employees and anyone else who may be affected by its undertakings to eliminate or control all hazards / risks, as far as is reasonably practicable
- Making arrangements using the 'Plan-Do-Check-Act' approach for the effective planning, organisation, control, monitoring and review of the preventive and protective measures identified as being necessary following the risk assessments
- Providing safe plant, equipment, systems of work, information, training and supervision as is necessary to safeguard the health, safety and wellbeing of all employees and those who may be affected by our work activities
- Establishing arrangements for ensuring safety and absence of risks to health in connection with the use, handling, storage and transport of articles and substances, so far as is reasonably practicable
- Providing and maintaining a working environment for employees that is safe, without risks to health, and adequate as regards facilities and arrangements for welfare at work, so far as is reasonably practicable
- Consulting with trade unions and other workforce representatives on health and safety issues to ensure that everyone is informed, involved and engaged in health and safety
- Providing and promoting positive policies regarding health, safety and welfare concerns at work to include access to occupational health and staff wellbeing support services
- Providing a robust audit and review process designed to measure safety performance and compliance with the School's policies, procedures and related safety guidance documents

As the Chair of Governors of Holmer Lake Primary School, I along with the Headteacher of the School are committed to the health, safety and well-being of all our employees, customers and partners.

This policy will be reviewed every twelve months and be updated as necessary.

..... **Chair of Governors**
Date: 5th March 2024

..... **Headteacher**
Date: 5th March 2024

Section 2; Organisation and Responsibilities

KEY PERSONNEL WITH HEALTH AND SAFETY RESPONSIBILITIES

Health, Safety and Welfare Advice and Training

Internal Health & Safety	01952 383627
Health and Safety Advisor for Schools – Donna Irish	01952 381817
Internal Health and Safety Training	01952 383627
Resilience Manager – Alan Boyd	01952 381932

Fire Control/Emergency Evacuation

Fire Safety Officer (Shropshire Fire & Rescue Service)	01743 260200
Fire Risk Assessments (biT Team)	01952 380934

Nominated Premise Fire/Emergency Co-ordinator: **Mrs H Kumar (Headteacher)**

Deputy Fire/Emergency Co-ordinator: **Miss A Pearson (School Business Manager)**

Fire Marshals: **Miss A Pearson (School Business Manager) & Mr I Taylor (Caretaker)**

Reporting and Recording of Incidents & Accidents

Persons nominated for overseeing the recording and notification of accidents, near misses, violent incidents, diseases and dangerous occurrences:

First Aid

Certificated First Aiders:

Paediatric First Aiders: **Helena Hogg, Elysia Gapper, Sidrah Sheiraz, Jo Davies, Karen Gratton, Deborah Ferguson, Louise Collins, Maria Gibbons, Michaela Kennedy, Pat Newbrook, Amy Green, Louise Smith, Hayley Mason, Maz Mashuda & Lauren McShea.**

Educational Visits Co-ordinator (EVC): Eleanor Woodman

Asbestos and Legionnaires Coordinator: Mr I Taylor & Miss A Pearson

Portable Electrical Appliance Testing Nominated Co-ordinator: DLM Electrical

Control of Substances Hazardous to Health Assessment Co-ordinator (COSHH)

Mr I Taylor (Caretaker) & Natalie Collins (Cleaning Supervisor)

Section 2; Organisation and Responsibilities, ctd...

The Organisation and Responsibilities section of the School Health and Safety Policy provides a framework to ensure the School proactively creates and maintains a safe and healthy working environment for all employees and those who may be affected by the School's activities.

All Employees must co-operate fully with the measures the School takes to fulfil the requirements of this policy.

Board of Governors

The Board of Governors, along with the Senior Leadership Team form the body corporate for the School and have the collective and individual responsibility for planning, resourcing and overseeing the School's activities, the provision of its services and the conduct of its undertaking.

The School Governors have a responsibility to conduct their business and make decisions in conformity with health and safety legislation and the School's own policies. Governors must ensure that the decisions they make take account of health and safety issues and that sufficient resources are allocated for this purpose.

School Governors will therefore:

- Consider health, safety and welfare issues as part of their decision making process.
- Use the advice provided by the Senior Leadership Team to help in their decision-making process to ensure the health and safety of all persons likely to be affected by these decisions.
- Formally scrutinise and adopt the School's Health and Safety Policy.
- Appoint a Lead Governor with specific health and safety responsibilities from within the board.

The Board of Governors are responsible for carrying out specific functions both individually and collectively.

The governors are not in day-to-day control of health and safety at the school, but they need to satisfy themselves that risks are considered as part of their decision-making process and are sensibly managed.

The Chair of Governors

The Chair of Governors has ultimate responsibility for all health and safety issues within the School and will provide effective leadership and direction for the implementation of this Policy. The Chair can also be the Lead Governor for Health and Safety, with the agreement of the Board.

The Chair of Governors (aided by the Senior Leadership Team), will as far as reasonably practicable, ensure;

- The provision of suitable competence and expertise to effectively deliver and implement this policy
- Adequate provision of suitable staffing levels, working conditions and environments
- Adequate provision and maintenance of suitable equipment and resources
- That School employees are appropriately informed and trained about health, safety and welfare
- That a robust audit process is in place to measure and review policy compliance and effectiveness
- That a Governor is appointed to lead on health and safety matters
- The Chair of Governors will chair meetings of the School Health and Safety Committee, will oversee the development of the School's Health and Safety Strategy and promote and support the activities of the Senior Leadership Team.

The **Lead Governor for Health & Safety** is responsible for health and safety and governance arrangements and will keep the Chair of Governors briefed on any significant safety matters arising outside of the Committee and elsewhere within the School.

The Head teacher and the Senior Leadership Team will provide effective leadership and direction to ensure the policy is implemented and will as far as reasonably practicable, ensure;

- The information contained within this policy is effectively communicated throughout the school

- That the personnel that they manage, have the necessary competence and resources to fulfil their health and safety responsibilities.
- That arrangements are in place for the on-going assessment of risks within the school that meets the requirements of the School Health and Safety Policy.
- That arrangements are in place for implementing the control measures which follow-on from the risk assessments within the school.
- That staff and others involved in the delivery of the school's services are provided with relevant information and training on the use of equipment, substances and machinery relevant to their role.
- That they and all levels of staff are appropriately represented on the Health and Safety Committee.

The Headteacher

The Headteacher has overall responsibility for the day to day operational management of health and safety within the school. They must have sufficient competence (or assistance from competent colleagues) to enable them to ensure that Telford & Wrekin's standards for health and safety are maintained in their establishments.

Headteachers will;

- Be responsible for the day to day, implementation of the Health and Safety Policy and will liaise with the Governors to ensure full compliance with all of its requirements.
- Keep themselves and their employees up to date with all relevant health and safety information and consult with or seek advice, guidance and support from the Internal Health and Safety Team.
- Facilitate the necessary health and safety training for staff, in order for them to undertake their work safely.
- Appoint key personnel to take responsibility for operational health, safety and welfare issues (see page 4)
- Periodically review the policy and make amendments to it whenever necessary.
- monitor the safety performance and take such steps as may be necessary to improve performance
- Ensure that all employees have access to a copy of the school's health and safety policy and are aware of their responsibilities.
- Ensure that effective channels of communication and consultation with staff and safety representatives are maintained.
- Ensure that suitable and sufficient risk assessments are carried out in respect of the health and safety of all persons that are affected by the school's activities; and that such risks are controlled by effective and proportionate means. Also that the assessments are recorded and highlight any employees, pupils or other individuals identified as being especially at risk.
- Promote a positive culture and an interest in health and safety matters throughout the school
- Ensure that appropriate staff liaise with subject advisers and health and safety officer/coordinator on health and safety matters.
- Make recommendations for improvement and present an annual report on Health and Safety to the Governing Body.
- Ensure all relevant accidents/incidents are reported via the appropriate channels (i.e. MyView), that they are thoroughly investigated, reported to the relevant enforcing authority, where necessary and that appropriate remedial actions are taken to help prevent a recurrence.
- Be responsible for dealing with visits from the Health and Safety Executive and other enforcing agencies.
- Ensure that competent persons are appointed to test and maintain the utilities, facilities, plant and equipment within their buildings / areas of control, as appropriate (gas, electrical, water systems, etc.)
- Ensure service and maintenance records are maintained for all relevant services, facilities, plant and equipment within their buildings / areas of control.
- Be responsible for ensuring that the Fire Risk Assessment has been completed and is reviewed at least annually.
- Ensure that suitable and appropriate fire safety and emergency arrangements are in place in respect of the buildings & premises, pupils & employees that they manage and / or are responsible for.
- Be responsible for ensuring that the Asbestos Survey Report is reviewed on receipt from the 'biT Team' and an Asbestos Management Plan is in place and reviewed annually.

- Be responsible for ensuring that there is liaison with key partners that have an interest in the building, on matters of health and safety relating to electricity, gas, water supplies, waste disposal, safe access of pedestrians and vehicles, building regulations and planning, etc.
- Be responsible for ensuring that health and safety repairs and necessary emergency work required to ensure the health and safety of staff, pupils and others are undertaken.
- Be responsible for ensuring that works plans, schedules and other data are maintained, in respect of the maintenance and building alterations of the school in so far as they affect health and safety.

The School Health and Safety Co-ordinator;

- Will encourage a positive approach to accident prevention and the health and safety of staff, pupils and others on the school premises and affected by school activities
- Will ensure that they understand current school policies and procedures affecting health, safety and welfare of staff, pupils and others.
- Will carry out investigations as deemed necessary, periodically inspect the premises and activities in order to determine whether the policies and procedures are being complied with and whether adequate standards of health, safety and welfare are being achieved
- Will ensure that effective measures are in place to deal with and prevent emergencies, this includes the organisation of periodic fire drills and all necessary checks to safety equipment (Fire Extinguishers, First Aid Kits, Electrical Equipment etc) working with the School Administrator/Business Manager
- Will ensure that all staff regularly check the electrical leads and plugs of the equipment they use. A system to report any defects e.g. a defects book must be set up so that defective equipment can be taken out of use and repaired by a competent person. The Cleaner in charge will be responsible for checking electrical items of cleaning equipment
- Will liaise with and seek advice, guidance and support from external Health and Safety Advisers (e.g. the Council's Internal Health and Safety Adviser, Enforcement Authorities, Health and Safety Executive and Environmental Health Officers, The Fire Prevention Officer, etc.) as and when necessary.
- Will identify health and safety repairs and put into operation as necessary emergency work required to ensure the health and safety of staff, pupils and others.
- Will maintain records of works plans, schedules and other data relating to the maintenance and building alterations in so far as they affect health and safety issues.
- Will liaise with key partners, as required on health and safety matters relating to electricity, gas, water supplies, waste disposal, safe access of pedestrians and vehicles, building regulations and planning.
- Will ensure that vehicles belonging to the school are serviced and maintained in a safe condition.

Heads of Department

- Will ensure that staff under his/her immediate control are familiar with those parts of the Health and Safety Policy that apply to the work they do;
- Will arrange for staff under his/her immediate control to receive, adequate and appropriate training and information in health and safety matters to enable them to undertake their job safely
- Will work to achieve and maintain good standards of health and safety performance within the department
- Will ensure that staff are conversant with current legislation affecting the health, safety and welfare of staff, pupils and others
- Will advise the Head teacher of all matters requiring attention with regard to health and safety
- Will liaise on, health and safety matters, with Local Authority School Improvement Advisers and Health and Safety Advisers
- Will promote a positive culture and an interest in health and safety matters throughout the school.

Teaching Staff

- Will take reasonable care of their own health and safety and that of the pupils and others who may be affected by what they do;
- Will co-operate with school management on matters of health and safety and will not interfere with or misuse anything provided in the interest of health and safety;

- Will observe the additional safety precautions needed if they teach in laboratories, workshops or other potentially hazardous areas and be aware of specific guidelines and specialist publications from bodies such as the CLEAPPS, DATA, the Association of Science Education and AFPE (Association of Physical Education)
- Will promptly report all accidents, dangerous occurrences and potentially dangerous practices and situations to Management\Health and Safety Coordinator etc. as appropriate.

Occupational Health provision

Occupational health will;

- Provide medical advice, from pre-employment, through to retirement, to both managers and employees to enable them to work in a way that does not endanger their (or anyone else's) health. Medical details remain strictly confidential throughout and will not be divulged to anyone without informed consent.
- Provide support and referrals for treatment, where appropriate, for School employees who experience work related health issues and provide medical input into health and safety policies to promote improved standards of health and wellbeing.
- Assist in the placing and maintaining of employees in occupational environments suitable to their physiological needs, e.g., the adaptation of work to the worker.

Building Innovation Telford (biT Team)

The school's 'biT Team' are a specialist service area that holds specific responsibilities for supporting the management of several key health and safety risks associated with the Schools buildings and premises portfolio. These key risk areas include ensuring compliance with the Construction, Design and Management Regulations, the management of contractors, fire safety, asbestos management, water management, gas and electrical testing, amongst other building management functions.

The biT team will provide the above services for all Telford & Wrekin core buildings and 'supported service delivery areas' that are an established recipient of, or that opt to 'buy-in' to biT's services.

The biT Team will also advise those service areas that choose not to 'buy-in', to biT's services, on how and from whom they may obtain assistance in complying with their legal obligations associated with such building management functions.

Health and Safety Representatives

Health and safety representatives may be trade union representatives, but not necessarily. They attend the quarterly 'School Health and Safety Committee', where they represent the views of employees (regardless of whether they are union members or not).

Health and safety representatives will be consulted in good time about health and safety issues.

- Amongst their functions they have the right to;
- Carry out regular inspections of the workplace
- Investigate accidents and incidents, and,
- Examine health and safety documents

All Employees of the School

Must at all relevant times, to minimise the risk of injury to themselves, other colleagues, customers or partners of the School.

- Comply with the measures specified in this policy and other relevant risk control measures, procedures and guidance, produced by the school, whilst at work.
- Conduct themselves in an appropriate manner so that they, and/or others are not put at risk by their activities, actions or failings.
- Co-operate with the Head teacher, managers and supervisors, on all matters affecting health, safety and wellbeing at work.

- Make full and proper use, in accordance with the user instructions and the training provided, of any plant, machinery or equipment that is made available to them; and to not misuse such equipment.
- Only use plant, machinery and equipment for which they have been authorised, have been fully instructed as to its safe use and have received suitable training. Where appropriate, employees must ensure that plant, machinery and equipment is suitably guarded during use.
- Attend relevant training courses as requested by management and adhere to the techniques and practices specified within any training provided.
- Wear / use the necessary protective clothing and/or safety equipment (including PPE) as specified for their role / work.
- Report hazards, defects or potential risks affecting the health safety or welfare of themselves or others, which they cannot eliminate or control themselves to their supervisor or manager immediately.
- Report all accidents and incidents (i.e. near miss, violence, abuse, racial and hate related) occurring in their area of work including cases of work-related ill health to their manager/supervisor immediately, following the correct reporting process. Employees may be involved in the investigation and any remedial actions required arising from this process.
- If at any time, employees are involved in any activity that feels unsafe or they feel at risk, they should stop the activity and raise their concerns with their line manager.

Trainees, Apprentices and Volunteers

The school recognises its responsibilities both as sponsor and managing agent to all its Trainees, Apprentices and Volunteers (and similar groups that may be affected). Such groups will be afforded the same health and safety status and adopt the same duties and responsibilities as that of an “Employee” and are required to be made aware of and adhere to the requirements of the School’s Health and Safety Policy.

Young persons and work experience students

All Young Persons and Work Experience Students have the same health and safety status and responsibilities as an employee and are required to be made aware of and adhere to the requirements of the School’s Health and Safety Policy. The potential vulnerability of such persons requires that they will be subject to greater levels of supervision than standard employees and may also be subject to additional controls depending upon the findings of the risk assessment process.

Visitors and the Public

Appropriate action must be taken to ensure that visitors are made aware of risks relevant to their visit, at the specific site they are attending. All visitors must be accompanied within areas of the School which are identified as non-public areas. These persons should not be allowed to access areas which may place them or others at significant risk. The School will conduct its undertakings in such a way as to ensure that visitors and members of the public are not endangered by its work activities.

Disciplinary Procedures

The Health and Safety at Work etc. Act 1974 states that, *“No person shall intentionally or recklessly interfere with or misuse anything which is provided in the interests of health, safety or welfare in pursuance of any of the relevant statutory provisions.”*

Disciplinary action may be initiated against any employee who knowingly violates or fails to implement the School’s safety policies, procedures or guidance, or who fails to use any personal protective equipment or other safety devices or equipment, when required, that is specifically provided for their protection.

Breaches of the health and safety policy, procedures and arrangements will be dealt with under the Schools Disciplinary Procedures. It must be understood that such breaches may also expose the individual committing the breach and / or the School to criminal prosecution.

Section 3; Arrangements for Health and Safety

In order to promote a health and safety culture that aims to produce high standards and continuous improvement, the school has put in place the following health and safety arrangements.

Governance and Audit

The principles of good governance are integrity, openness and accountability.

These principles describe the systems and processes whereby the Chair of Governors and the Headteacher, as Senior Leadership Team, fulfil their collective responsibilities and provide the foundation for securing the health and safety of the school's pupils, employees and others affected by its activities.

Governors and the Senior Leadership Team will meet for regular updates on health & safety performance, to determine if the school's health and safety policy, strategy and action plans are being achieved and if necessary ensure that any outstanding issues are being prioritised and addressed via a risk based approach.

Risk Assessment

Risk assessment is the main tool that the school relies upon to identify and control the risks arising from our work that could potentially harm employees, pupils, parents, contractors, visitors and anyone else affected by the operations of the School.

The School's Senior Leadership Team have the responsibility for ensuring that all significant risks, arising from their activities are properly assessed, to identify;

- Any hazards which have the potential to cause harm
- Who is likely to be harmed (employees, contractors, public etc.)
- How likely it is that the harm will occur.

From the above the SLT will do all that is reasonably practicable to protect people from harm by looking at the control measures already in place and then asking if the hazard can be removed altogether, or if not how the risk can be controlled e.g. trying a less risky option, organising the work differently to reduce exposure to the hazard and / or by providing PPE.

- Risk assessments will be carried out or reviewed before every educational visit
- All P.E. activities have been risk assessed including the use of the outdoor play equipment.
- Arthog Outdoor Education Centre does its own risk assessment which staff are familiar with. They will check the control measures to ensure they correspond with the school risk assessment.

The Senior Leadership team should always consult employees, and others where appropriate, when completing the risk assessment process. Employees carrying out the work, generally know best as to what the risks are and should play a part in ensuring that the assessments are carried out robustly and that the precautions and preventive measures that we put in place, work effectively in practice. Employees must be made aware of the significant findings of the assessment and the control measures put in place to protect them.

All the significant risks to employees and those affected by the School's undertakings will be recorded and control measures put in place to enable all employees to operate in a safe manner.

Managers are responsible for ensuring that they undertake the risk assessments and review them at least annually or more frequently as required.

This will be monitored by the School's Health and Safety Co-ordinator (School Business Manager).

Communication, Consultation and Co-operation on Health and Safety

High quality communication is an integral part of effective health, safety and wellbeing management.

Holmer Lake Primary School will consult with recognised trade union and other employee representatives on matters affecting health and safety via the safety forums and meetings outlined below.

School Governors' meetings

All governors oversee and take responsibility for health and safety. Any health and safety matters are discussed in committee and full governor meetings.

Staff meetings

Staff meetings must create the opportunity to discuss health and safety issues. These give everyone the chance to raise health and safety concerns that apply to the team and discuss proposed improvements.

Other Health and Safety Communication Channels

In addition to the School's established committee structure additional communication channels will be provided and/or already exist, for the exchange of health and safety knowledge and information through the day-to-day supervisory channels.

These channels include, for example:

- Issuing and exchange of risk assessments, safe systems of work, safety policies, guidance documents
- Publication of policies, procedures and guidance documents
- Making health and safety a standing agenda item at Management / Team meetings
- Holding health and safety briefings
- Issuing safety alerts and raising the profile of key health and safety topics in staff news
- The provision of line management / supervision, and,
- 'On the job' training

Accident & Incident Reporting and Recording

All accidents, incidents (including near-miss, violence and/or abuse related) which occur on the school's premises or arising from school activities must be reported, using the correct reporting process. Such incidents must be reported by the employee on MyView so that details can be retained for future reference.

A range of manual forms (for accident, violent incident, near miss etc.) will be made available for the use of personnel who, for whatever reason do not have access to a computer. The line manager of such individuals must upload the manual form to MyView, once the incident is notified to them.

Any serious incidents must be reported to the Senior Leadership Team immediately.

Line managers will receive email notifications whenever an incident is entered onto MyView and are responsible for reviewing and authorising such reports, as necessary.

If there is any uncertainty as to what needs reporting staff can contact the Internal Health and Safety Advisor for advice and support 01952 383627. Staff should be aware that in the event of a serious accident/injury the Health and Safety Advisors may need to investigate the incident. Therefore it is advisable to take witness statements and photos of the site of the incident as soon as possible while it is still fresh in everyone's mind.

Where such an incident results in a 'specified injury, incident or occurrence' as described in the Reporting of Injuries Diseases and Dangerous Occurrence Regulations 2013 (RIDDOR), the school's line managers hold the responsibility for reporting such incidents or occurrences to the relevant authorities.

All RIDDOR reportable incidents involving the school's employees or others affected by the school's work activities, must be reported to the Health & Safety Executive within a proscribed timescale.

School staff must notify the Senior Leadership Team, whenever an incident is deemed to be reportable under RIDDOR so they can support the process. This must happen prior to reporting to the HSE.

The School Leadership Team have a responsibility to carry out a robust investigation following an incident and where appropriate to take reasonable action to prevent reoccurrence.

Employees are actively encouraged to report all safety concerns to their line manager.

Reviewing accidents

An analysis of the accident reports and near-misses will be undertaken at intervals and considered by both school management and Governors for consideration of further action.

Staff must be aware of the following:

- Parents are to be advised of incidents in writing by means of a note where deemed necessary. Details of the injury, time and date must be included, this is essential for head injuries. 'Parent slips' are kept by the accident book in the first aid office.
- Information about children's allergies are readily accessible to staff and supply teachers on the register sheet.

Asbestos

Staff will be made aware of the areas in the school where there is known to be asbestos. This is to ensure they understand how it is being managed and what to do in the event that they notice that it is becoming damaged.

Staff will be made aware that they must not disturb areas where there is known asbestos. If there are any concerns they must contact the Head teacher and/or School Business Manager/Caretaker, immediately.

The Asbestos Survey (where applicable) is kept in reception and will be brought to the attention of all contractors whose work will or could disturb the fabric of the building. The school specific Asbestos Management plan is located in the front of the survey.

Bad Weather Contingency Plans

School site staff will be responsible for ensuring the site remains in a safe condition and will produce a risk assessment for gritting the site during icy and snowy conditions. Staff must stick to the agreed routes during icy/snowy conditions because some areas may not have been gritted. Staff will be notified of these areas and/or they will be cordoned off.

Chemical and Substance Safety

NO SUBSTANCES WILL BE USED OR GENERATED WITHIN THE SCHOOL UNLESS AN ASSESSMENT OF THE RISKS THAT THEY PRESENT HAS BEEN MADE.

Whenever the school intends to use, or create a substance that could be a risk to the health of staff, pupils and others, the School's COSHH Assessment Co-ordinators (named on page 4) will:

- Identify and control these substances, minimising the risk of exposure to staff and others.
- Ensure staff are aware that certain substances are hazardous to health. Wherever possible these will be taken out of use. Where substitution proves to be impracticable then a full COSHH risk assessment will need to be carried out and documented.
- Ensure all users are informed, trained and instructed in the safe use of these substances and have access to the COSHH assessments.
- Ensure staff know that they are to read labels and instructions, practise sensible, safe working practices and follow and understand the emergency procedures.
- Ensure equipment is used as instructed.
- Ensure personal protective equipment/clothing is available and used when required. Staff must be aware that they have a responsibility for reporting hazards, potential hazards and "near misses" to the Head teacher or if not available, School Business Manager.

Computers

Staff who use computers, including laptops, for 1 hour or more at any time during their working day must undertake a workstation risk assessment.

Speak to the School Business Manager who will be able to give you a copy of the self-assessment and run through the procedure. If any changes or equipment are required that cannot be resolved directly by the user then report back to the School Business Manager who will see if it is appropriate to order the equipment e.g. screen riser, footrest etc. Further advice can be obtained from the Internal Health and Safety Advisor.

Contractors

All contractors working on the school premises are to report to the school office prior to starting work. They must be shown the relevant part of the asbestos survey and sign the ASBESTOS SIGNATURE SHEET to indicate that they will be expected to operate within the guidelines set to avoid disturbance of asbestos

For extensive work or high-risk jobs the contractor must comply with the recommendations and procedures issued by Telford & Wrekin Council and current health and safety legislation. Close liaison between the Council representative, School Business Manager and contractors must be maintained.

The procedure for this type of work will be agreed prior to work commencing and amended during the work activity as necessary especially when there are unforeseen developments.

School safety arrangements regarding contractors Telford & Wrekin Council requires contractors included on their approved list to be CHAS registered or registered by another of the other Safety Schemes in Procurement. This provides a measure of confidence in the contractor's ability to manage health and safety. Schools should select contractors from the approved list wherever possible.

Once a competent contractor has been appointed the school will:

- discuss with the contractor details of current relevant issues and works to be completed, supported by documentation where necessary;
- require the contractor to provide method statements, permits to work etc, as applicable;
- seek confirmation that the contractor agrees to work in accordance with the School's Health and Safety Policy and arrangements, and the health and safety requirements that are laid down in the contract;
- clarify the responsibility for provision of first aid and firefighting equipment and the procedures to be followed in the event of emergency;
- obtain details of articles and hazardous substances intended to be brought onto site, including any arrangements for safe transportation, handling, use, storage and disposal;
- obtain details of plant and equipment brought onto site, including arrangements for storage, use, maintenance and inspection;
- agree key points of contact, arrangements for communication during work, including arrangements for reporting problems or stopping work in cases where there is a serious risk
- agree arrangements for suitable working times and segregation of school activities from the contractors work areas;
- seek confirmation that all workers are suitably qualified and competent for the work.

Fire Safety and Emergency Evacuation

The Fire Risk assessment is stored in the Fire Safety file in the reception office. This is reviewed on an annual basis unless there are significant changes before this. As a result of the assessment, if any additional precautions are identified as necessary the school will implement these as a matter of priority.

Notices setting out emergency evacuation procedures are displayed at key points around the school and in every classroom.

Emergency exit doors and routes are kept clear at all times and not obstructed at any time. All fire doors are kept permanently unlocked while the premises are in use.

Contractors check all firefighting and detection equipment monthly to ensure that is present in the correct locations and has been subject to a service check within the last 12 months. In addition, there is an annual check of all fire extinguishers.

The fire alarms are tested weekly by Mr I Taylor (Caretaker) and emergency lighting monthly. Records are kept in a log in the school office.

Fire drills take place at least termly. Details are recorded and notes made of any problems which needing remedying.

- In the case of a fire, the first requirement is for staff to ensure the safe evacuation of all persons from the building to the safe places indicated on the fire procedures notices. The building should NOT then be re-entered until it has been confirmed that it is safe to do so.
- The Fire Brigade will be summoned by the Headteacher or in their absence by School Business Manager/Caretaker.
- Fire wardens will sweep their designated areas and report to the 'Person in Charge'
- All attendance registers will be properly marked for the morning and afternoon sessions. Members of the teaching staff will take their registers with them on evacuating the premises.
- A roll call will be taken when all have reached the place of safety.
- All visitors/contractors report their presence on site to reception and sign the 'Visitors' book and ensure they are familiar with the fire precautions. Reception staff must remind visitors to read the emergency arrangements.
- In the event that anyone by reason of any sort of disability or special need on the premises would be unable to evacuate the building without assistance a Personal Emergency Evacuation Plan will be drawn up, agreed with them if possible and implemented.
- Staff or others taking after school clubs must ensure they are familiar with the fire precautions.
- All access routes will be maintained in a safe condition and be free from obstructions. So far as reasonably practicable any hole, slope, uneven or slippery surface which is likely to cause a person to slip, trip or fall preventing them getting out of the building safely will be repaired.
- Drills to practice evacuation of the playground and field will take place termly.

First Aid & Medical Emergencies

If urgent medical aid is needed an ambulance should be called immediately by dialling 999. Provide details of the exact location and send someone to direct the paramedics to the casualty if necessary.

First aid treatment should be provided to the casualty whilst waiting for the paramedics to arrive.

First Aid

The school will ensure that first aid can be rendered to staff and pupils, should they be injured or become ill. A 'first aid needs' risk assessment has been undertaken to ensure the provision is suitable for the school at all times including out of normal working hours and on visits and journeys.

If immediate medical assistance is thought to be necessary, parents will be contacted. However, should the parent(s) be unavailable medical assistance will be sought by the school and the child will be accompanied to the doctor or hospital by a member of staff.

The school seeks to ensure that at least two members of staff have received training on an approved first aid course and two other members of staff have the additional paediatric training.

First Aid Facilities

- The first aid boxes are placed in clearly identified and accessible locations (List).....First aid room/EYS.....
- Each first aid box contains a list of required first aid items and sufficient quantities of suitable first aid material and nothing else. Contents of the box will be replenished as soon as possible after use in order to ensure there is always adequate supply of all materials. Additional supplies are available from.....the admin staff The lead first aid are responsible for ensuring these are replenished as soon as possible after use.
- Disposable plastic gloves will be provided in the first aid box which will be properly stored and checked regularly to ensure that they remain in good condition.

- Notices are posted in prominent positions throughout the school giving locations of first aid equipment and the names of the first aiders.

Recording First Aid Treatment

Records of treatment provided will be made in the accident/Incident book for pupils/students. If the incident was work related then this will be reported and recorded using the electronic MyView system and a copy kept securely in case of follow up investigation or claim.

Administration of Medicines

First Aid does not include administering medicines to children. Staff will require additional training and consent to administer medicines e.g. insulin, use of an epi-pen etc. This will only be after full consultation with the parents and the school nurse.

Staff can be with the child as the child administers their own medicine. Any member of staff witnessing the child taking their medicine must sign a form to confirm this. Where ever possible two members of staff will be present especially when having to administer the medication.

Medicines are kept in the locked cupboard inthe first aid room..... or, if required to be refrigerated can be found stored in the fridge located:first aid room..... Further advice can be found in the Medication in Schools Guidance found in the School Knowledge Hub SharePoint system.

Parents/Guardians will need to fill in a consent form asking for medicine to be stored in the school. Parents/Guardians must be made aware they will be responsible for making sure the medicine is kept within date.

Lone Working

Working Alone should be avoided wherever possible. However, it is recognised that, from time to time, it may be necessary for school employees to work in situations or locations, which are remote from other members of staff. This will include employees working in the evenings, weekends or during the holiday in the school on their own.

In such circumstances, the school will assess the risk to these individuals and introduce suitable controls to ensure that all risks are minimised. Any staff wishing to work on the premises outside normal school hours must have prior agreement from Headteacher or designated senior manager.

Manual Handling

Moving heavy and awkward loads can cause injury. Where staff roles require them to undertake significant manual handling, then training will be provided.

A specific manual handling risk assessment will be undertaken for the task and reviewed regularly, staff must follow the control measure at all times.

General manual handling guidance for all staff

- To avoid manual handling injuries all staff should follow established safe manual handling techniques:
- Plan the lift before you start.
- Assess the load – if it is awkward or heavy, find out whether there is a mechanical aid to use e.g. trolley or a second person to help.
- Ensure the route you are going to take is the most direct, clear from obstruction and as flat as is possible. When you off-load the object make sure the area is clear for you to do so.
- When lifting bend your knees and keep your back straight, feet apart and angled out and ensure the load is held close to the body and firmly gripped.
- Lift smoothly and slowly, using your powerful leg muscles and avoid twisting, stretching and over-reaching where practicable.

Out of Hours Use of School Premises

Suitable consideration will be given to persons using the premises outside of school hours in order to ensure their safety.

A responsible person will be nominated to represent the school and a user representative sought for liaison, to ensure that all visitors understand the procedures to be adopted in the case of fire/emergency evacuation, first aid provision, and safe use of buildings, equipment, substances and other facilities. There will be control over the number of persons attending functions at the school to ensure that they can all evacuate quickly and safely in the event of an emergency. If necessary further advice will be sought from the Fire Safety Officer.

Hirers of the building will be given written emergency procedures that they have to comply with and sign to agree to follow those procedures.

Events and entertainment programmes will be scrutinised beforehand with regard to any licensing requirements.

Parental/Adult Help

- All parents and adults must be DBS (Disclosure & Barring Service) checked if they offer to help with clubs, transport or any other school activity.
- When using their own car they must prove that their insurance cover is appropriate to take children on school business and the car is road worthy, taxed and MOT where appropriate.

Personal Protective Equipment (PPE)

Where circumstances require it, PPE will be provided to staff as a last resort if no alternative control measures are available to reduce the risk to an acceptable level.

PPE will be provided to staff or pupils where this is a necessary control identified by a risk assessment. This could be eye protection, hearing protection, gloves, high visibility wear, helmets and footwear.

The Business Manager, will be responsible for purchasing the correct type of PPE which is suitable for the task in hand. The person who will be wearing the equipment should be involved in the process of purchase, to ensure that it is correct in size and fit so that it is comfortable to wear.

There will be suitable arrangements in place for the storage, cleaning and replacement of PPE. Staff will receive training as appropriate and will be required to wear the PPE provided. They will be responsible to keep it clean, store it correctly and report any faults so that replacements can be provided.

Play Equipment (indoors and outdoors)

All play equipment must be used in accordance to the manufacturers/installers instructions.

All new pupils are given an induction on the equipment before they first use it.

Staff rota for break time supervision can be found on SharePoint/Staff Resources. All staff as part of their duties must visually check the play equipment before the pupils use it and check that the weather conditions are suitable for its use. SLT to make the final decision for the equipment to be used.

Indoor and outdoor play equipment weekly/quarterly inspections are undertaken by the Caretaker.

Records of the inspections are recorded and kept in the school office.

Annual inspections are undertaken by 'ROSPA' report kept by the School Business Manager.

Portable Electrical Appliance Testing

The Head teacher or School Business Manager is responsible for ensuring that all portable electrical equipment is tested regularly by an approved contractor.

A register of all such electrical equipment used in the school is kept by the School Business Manager.

No equipment other than that purchased as new may be used unless tested. This includes personal equipment brought into school by members of staff. All new equipment must be entered into the portable appliance register as soon as practicable and not left until required to be tested.

The School Business Manager will be responsible for co-ordinating the registration, inspection and testing of equipment.

All staff will be instructed to visually check electrical equipment for obvious defects before use.

All hard-wired electrical installations are inspected at least every 5 years and more frequently where changes are made to the system.

Pregnancy and New Mothers

Risk assessments must be produced to identify any further precautionary measures that are needed to protect pregnant employees. If you are expecting a baby (or have given birth in the last six months) you will need to let the Headteacher know as soon as possible. The Headteacher will review the risk assessments applicable to you to ensure that you are as safe as possible during your pregnancy and will take any additional measures needed to protect you.

School Security

Safeguarding

Safeguarding procedures will be monitored and reviewed at least annually by the School Health and Safety committee.

- Gates are locked at the same time each day in the morning at 9.00am and after school at 3.15pm. After which time access to school is via the main reception. After school clubs use the gates at the hall entrance which are kept locked
- The admin team monitors those that come to the door at reception before deciding who to let into the building.
- All visitors sign in and out and wear badges of identification or a visitor's badge.
- The main doors have good locking mechanisms.
- Intruder alarms are installed.
- The following staff have a set of keys to access the school at any time:
 - Headteacher
 - Caretaker
 - T & W caretaking

They can also activate the school's electronic security system. The School Business Manager has a full inventory of key holders and keys that have been allocated.

- Blinds or curtains have been installed in all classrooms and corridors for security, the classroom blinds or curtains are closed at the end of each school day.

The Caretaker/Cleaning Supervisor/Headteacher is responsible for the security of the school at the end of the day by ensuring that doors, windows, skylights etc. are secured. All staff have responsibilities for ensuring their classroom windows are shut and lights and computers are switched off at the end of the day.

Responding to call outs

The following are the school's nominated representatives who will respond in the event of an out-of-hours call out:

- Business Watch
- Headteacher (H. Kumar)

The school have assessed the risks to these individuals and introduce suitable control measures to ensure that all risks are minimised. All nominated staff have been trained in how to deal with violence and aggression and will be supported if an incident occurs.

Lone Worker attendance

If anyone has to attend to a call out on their own, procedures must be in place so that the individual on site keeps in contact with someone on arrival at site, at regular intervals whilst on site, when leaving site and on arriving safely at home. If the lone worker fails to make contact within the agreed time further steps to establish their whereabouts will be needed.

No employee will enter a building alone unless there is an urgent and important need to do so before assistance arrives. No employee is expected to enter a building where it is believed there is a significant risk.

Following any event the risk assessment will be reviewed and further control measures implemented where appropriate.

Smoking

Everyone's health is important, so smoking is prohibited during the school day either by staff or pupils whilst on the school premises. See the code of conduct for full details.

Stress

Although pressure is necessary for us to live normal lives, excessive pressure can cause stress which in turn can lead to real physical and mental problems. Training is available on handling personal stress and employees are encouraged to take their PPA time and take regular exercise. Heads are expected to be able to recognise and manage stress and try to promote a harmonious working environment within their teams. Training is available to help with this.

If you feel that work is causing you to have too much stress or even that stress caused by other things is affecting you at work, then you need to tell your line manager/Headteacher or contact the Telford & Wrekin Internal Health & Safety (tel: 383627). If you wish, all such contact can be confidential. All employees also have access to confidential counselling via the school's employee assistance programme (EAP).

Supervision of Pupils

The school will be open from 8.00am to 5.00pm on weekdays during term times. Between these times supervision will be provided. Pupils will not be allowed on site outside of these times, unless this is for planned extra-curricular activities. Parents are informed of the details of the school terms and opening arrangements at the beginning of the school year and reminders sent throughout the year when necessary.

The school website gives details of arrangements for 'Breakfast Club' and 'After School Care' times.

The school operational arrangements will take account of the following:

- Supervision ratios and locations between school opening and lesson start time
- Supervision ratios and locations at break and lunchtimes
- Supervision ratios and locations between end of lessons and school closing time
- Areas to be used by pupils outside lesson times

Training in Health and Safety

Providing relevant health and safety training as is necessary to protect the health and safety of our employees is a key policy commitment of the school. All employees regardless of their status, must be

provided with sufficient training, knowledge and skills to enable them to carry out their work safely and with the minimum of risk to themselves and / or anyone else.

One of the core competencies for Headteachers and managers is health and safety, and all Headteachers and managers will be assessed on this and encouraged to improve their skills and knowledge.

Relevant members of the Board of Governors, along with the Head Teacher and other Managers as appropriate will attend periodic health and safety training sessions. This will help ensure that the School Leadership Team is kept abreast of their safety obligations and how to implement them.

It is particularly important that new employees are given an induction, ideally within the first week of their employment or as soon as is reasonably practicable. This induction must include essential health and safety related matters, including their responsibilities as identified in this policy; other basic information such as first aid, fire safety and the reporting of hazards and incidents.

Job specific training should follow which introduces local policies, processes and procedures. Further specialist training should take place where additional skills are required; this will include refresher training where these skills are not frequently used or where the risks have potential to change.

Challenging Behaviour

The school follows Telford & Wrekin Council's Policy and Guidance on Personal Safety at Work. The Head teacher is responsible for ensuring that **all** staff:

- Are aware of the policy and procedures for avoiding violence at work and reporting and recording all incidents of verbal and physical abuse. See page 14 for Accident & Incident Reporting & Recording.
- Are aware of Telford & Wrekin Council's arrangements available for victims of violence at work.
- Know that when they have meetings with potentially hostile parents these must be in the presence of another member of staff.

As appropriate, staff will be trained to manage actual and potential aggression and/or unacceptable behaviour.

Visits and Journeys

Telford & Wrekin Council's Educational Visits and Journeys Guidance is followed and the Educational Visits Coordinator (EVC) is listed on page 4 of this policy. The EVC will liaise with the members of staff who will be undertaking the trip to ensure the procedures have been followed. (N.B. If the EVC is not the Head teacher then the EVC must make sure the Head teacher countersigns the approval documents including the risk assessment.). **If there are any incidents or concerns on a trip then staff will contact school immediately and seek guidance from SLT.**

Working at Height

Working at height, can be very high risk and persons do not need to be very far off the ground for these risks to be realised. An assessment must be made of the risks from such work, and those risks should be designed out (by avoiding work at height) wherever possible. Relevant staff, particularly site managers/caretakers, whose role may periodically require them to use ladders must have completed ladder safety training if using a ladder cannot be replaced by safer means, as part of the risk assessment process.

Where work at height cannot be avoided the equipment used for such work must be appropriate and suitable for the job and must be regularly inspected and well maintained. **The use of chairs / desks and other equipment (that is not specifically designed for work at height) as a means of gaining access for such work is strictly prohibited within the school.**

Work Equipment

Work equipment relates to all things that the school relies upon for its effective operation. For example; tables and chairs, heating boilers, lifts, ladders, vacuum cleaners, utensils, computers, photocopiers, fire extinguisher's etc.

All equipment purchased by, or on behalf of the school must be suitable and fit for purpose. Therefore, before any equipment is purchased managers must ensure they understand what is required, consult with all those that will be using the equipment, and take appropriate professional advice where necessary:

- Consideration will be given to the safe installation, storage and positioning of the equipment.
- Training in the safe use of the equipment may be required and should where practical be supplied by the companies providing the equipment.
- The equipment will be maintained to ensure that it remains in good condition by the Caretaker/Site Manager or will be under contract for maintenance and repairs either via Telford & Wrekin Council, the Supplier or an alternative competent maintenance provider.

It is the responsibility of the person using the equipment to ensure it is in a safe condition before using it. They may require instruction and/or training before the initial use to know how to undertake the checks.

Where any faults are noted with equipment, this must be taken out of use immediately and brought to the attention of the Caretaker or other appropriate manager for action.

The school keeps a record of the inspections and checks that are made to all equipment. These records are kept by the School Business Manager.

Wellbeing of Employees

Employee Assistance Programme

The School's Employee Assistance Programme (EAP) provides employees with access to a dedicated online health hub to support their health and wellbeing. The Hub contains a wealth of information and resources including webinars, wellbeing fact sheets, videos, articles, self-help programmes, interactive tools and educational resources to help with life's challenges.

The service operates a 24 hour, 7 days a week confidential telephone support line too and this can be used for advice or to access **counselling support 0800 783 2808**. Counselling support is also available for all adult family members living in the household. As part of this programme employees are entitled to up to 6 sessions of counselling to provide immediate support until other counselling support is available if required through the NHS (National Health Service) for example.

The health hub can be accessed by visiting [healthassuredeap](https://healthassuredeap.com), or by downloading the 'Wisdom' app on Google Play/the App Store and entering code MHA128723.

We will apply our legal duty to protect employees' health, safety and welfare by understanding the signs of drug and alcohol misuse (or abuse). A policy is in place to deal with drug and alcohol-related problems, manage the health and safety risks in the workplace and support our employees.

Sources of support, information and guidance on Health and Safety

Wherever possible school employees are encouraged to try and resolve health and / or safety issues for themselves in the first instance, providing it is safe to do so; **Sort it or report it!**

Where employees are unable to deal with a problem directly, they are encouraged to contact the person responsible for the issue and / or that has the necessary authority to resolve it.

Often this will be the employee's head teacher or line manager and, in any case, should the employee be uncertain of whom to go to, they should always report the matter to their line manager in the first instance.

If the line manager is unable to answer the query or the employee would feel more comfortable talking to someone independently, they should contact the Internal health and safety team on 01952 383627 and/ or their trade union health and safety representative.

List of associated policies, procedures and guidance documents

Detailed guidance and policies can be found on the school's intranet.

Further useful information and advice can be found on the HSE website <https://www.hse.gov.uk> and the web sites of the recognised trade unions.

Detailed guidance and policies can be found on the Education Health and Safety SharePoint site.

Monitoring and Policy Review

The effectiveness of the Health and Safety at Work Policy will be subject to a management review by the Schools Governing Body and Senior Leadership Team.

This policy will be reviewed at least annually and updated, modified or amended as necessary to ensure the ongoing health and safety and welfare of School employees and visitors.

The school will make arrangements to carry out a systematic and regular programme of monitoring and review of:

1. All risk assessments
2. All accident and incident reports
3. All advisory reports received
4. All termly audit reports (where appropriate)
5. The annual audit report
6. Progress on health and safety and fire action plans, policy and procedure updates
7. Other health and safety related matters and events arising throughout the school year.
